

Hi Charlie and Bill

I would personally like to thank you gentleman and your organizations for the privilege afforded me in riding with **Capt Jeff Owens** as tournament judge. Having never personally caught a tarpon, it was a privilege to see up close the tactics Jeff employed.

I also have to give him the highest possible accolades for going the extra mile in explaining to me why he used these tactics, how the tides were affecting his decisions, the pros and cons of the baits used etc.

He even went as far as discussing how tactics changed on one as apposed to two tide days, beach and pass tactics, and the different methods used.

Having used guides in the past, I believe I learned more on this trip than any previous outing with a pro.

I would recommend this opportunity to anyone with an interest in taking their fishing to the next level.

Thanks again

Alan
